### DETAILED ACTION

**Status of the claims:** Claims 1-11 are currently pending.

**Priority:** This application is a 371 of PCT/JP04/19474 (12/17/2004) and claims foreign priority to JAPAN 2003-420885 (12/18/2003).

**IDS:** The IDS dated 5/17/06 was considered.

### *Election/Restrictions*

Applicant's election without traverse of Group I:

*Group I, claim(s) 1-3, drawn to a filter product of formula Ia:*

in the reply filed on 8/1/08 is acknowledged. Applicant also elected the following species:

As was detailed in the requirement for restriction/election, because the generic claim was not found patentable, the claims are restricted to the elected species only and the subject matter outside of the elected species held withdrawn. Therefore claims 4-11 are hereby withdrawn in their entirety and claims 1-3 are withdrawn, in part, where the subject matter reads beyond the elected species and the elected group.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by US 6599605.

The prior art teaches the following compound:

which anticipates the claims when X is (A), R1

is hydroxyl, R2-R4 are hydrogen, R5 and R6 are ethyl, Y is (C), R10 is hydrogen, R9 is methyl and nitro (n=2).

### ***Claim Objections***

The pending claims are objected for reading on non-elected subject matter as a result of the restriction to the elected species ONLY.

### ***Conclusion***

The claims are not in condition for allowance.
